

Brantay Cohens

My name is Brantay Cohens, and I currently serve as your SCCTM Secretary. I am a native of Georgetown, South Carolina and I have taught middle school math and science for the past 6 years in Horry County. I have been active with SCCTM since 2017 when I had the opportunity to serve as an SCCTM Fellow. Over the past 6 years I have had many opportunities to participate in local and state conversations related to equity in mathematics instruction and assisting with identifying and developing quality assessment and curriculum resources. My goals are to continue to help students to develop a love for mathematics, serve as an advocate for teachers, and to promote and help with the improvement of mathematics education. I hope for your support in being reelected as the SCCTM Secretary!
